

## **Spica Solutions receives Services Endorsement Recognition from Dynatrace**

*Proficiency in architecting, upgrading and managing the Dynatrace Platform to deliver high-speed software adoption and transformation for customers*

[Dateline] – Spica Solutions, a leader in groundbreaking solutions for IT process automation, today announced it has achieved the Services Endorsement recognition from Dynatrace, the leader in unified observability and security. This achievement reflects Dynatrace’s acknowledgement that [Partner] has demonstrated deep experience and proven customer success in architecting, implementing, upgrading and managing the Dynatrace Platform to help organizations speed up adoption and digital transformation.

“As the need to bring services to end-users increases, it’s imperative that our partner teams are equipped to be able to support their customers efficiently,” says Luis Porem, VP of EMEA Partners, Dynatrace. “Dynatrace’s Services Endorsement Program helps organizations achieve this by equipping teams with the knowledge, skills, and experience of delivering Dynatrace Services successfully. I’m thrilled that Spica Solutions has achieved our Services Endorsement badge. This recognizes their commitment to providing Dynatrace Services to their end-users to enable them to transform their business.”

The Services Delivery Endorsement achievement underlines Spica Solutions' long-term commitment to implementing and managing the Dynatrace platform, with particular emphasis on achieving high value and return on investment for customers. One of the endorsement requirements is individual certification of Spica Solutions engineers at both professional and consultant levels in observability.

Thanks to this recognition, Spica Solutions has already gained wider recognition both in the EMEA region and in NORAM. The achievement contributes to building deeper trust between the company and its clients, who can now fully rely on the quality of services, practice and expertise, which have been validated and recognized by Dynatrace. It also proves that the Spica Solutions team has all the skills needed to handle the most complex observability projects around the world, which has already been proven in projects implemented for companies such as Amway, BNP Paribas, Millennium Bank and many others.

Maintaining the level of knowledge and commitment requires from engineers constant development and the desire to be among the best. The approach is written in the company's DNA and has resulted in the team of engineers obtaining certificates and titles of Master, Dynamights, Professionals, Consultants in Observability and App Developers.

“The Service Delivery Endorsement from Dynatrace is a significant milestone for Spica Solutions, demonstrating its knowledge, experience and commitment to providing high-quality observability services to its customers. This distinction will certainly open up new opportunities for the company to expand its reach and undertake more ambitious projects around the world. With a team of highly skilled and certified engineers, Spica Solutions is well-equipped to handle any complex observability project and deliver innovative solutions to meet customer needs.”, says Daniel Spica, CEO, Spica Solutions.
